

Patent Application 10/800,328
Attorney Docket No. PC25322A

12

Remarks

Support for Amendments to Specification:

A typographical error has been identified regarding the $S(O)_2R^9$ variable for Z off of the pyridinyl moiety of formula I. The way the variable is defined in the application as written provides a structure $-S(O)_2-O-(C_1-C_3)alkyl$. However, formula XI in Scheme 2 on page 17 (copy attached after this paper for ease of reference) shows that the variable should be $-O-S(O)_2-(C_1-C_3)alkyl$. In preparing the variable, it appears that the oxygen was inadvertently transposed between the " $S(O)_2$ " and alkyl rather than between the " $S(O)_2$ " and the pyridinyl of formula I.

To correct this typographical error, the $S(O)_2R^9$ variable for Z would need to be written: Z is $O-S(O)_2R^9$, wherein R^9 is $-(C_1-C_3)alkyl$.

Allowing the correction of the typographical error will not add new subject matter.

Support for Amendments to Claims:

Support for new claim 36 is found on at least the following pages: page 3, line 19 spanning to page 4, line 21; and page 8 lines 9-14. Support for claim 38 is found on at least the following pages: page 3, line 19 spanning to page 4, line 21; page 8 lines 9-14; and page 26, lines 26-35.

Support for new claims 37 and 39 is found on at least pages 72, line 13 to page 74, line 23 and also from the following examples: 54, 61, 72, 78, 80, 89, 93, 94, 106, and 107.

The new claims 36-39 do not add new matter.

Applicants reserve the right to file any subsequent application covering the canceled subject matter canceled in the previously filed preliminary amendment and this amendment.
